

## Linen Tie-Waist Apron

### Full Product Description (94 words):

Meet Honoré's **Linen Tie-Waist Apron**— the handcrafted, sustainably-made linen apron of your dreams. With its generous front pockets and long ties that wrap comfortably around the waist, this classic apron will quickly become a favorite in your kitchen— that trusty, comfortable apron you reach for every time you start baking. The apron is carefully imprinted with Honoré's lovely wheat-stalk logo, and is hand-sewn in Oregon from the highest-quality Belgian linen.

*This linen is grown and processed without chemicals, making it natural and compostable. Shrinkage will occur. Care Instructions: Wash in cool water. Hang dry.*

## Linen Bread Bag

### Full Product Description (159 words):

Linen bread bags have been used for centuries to keep bread fresh. Those in our namesake St. Honoré's household likely used linen bags to store their bread in 7th-century France! Today, linen bread bags are still the best way to store bread, especially the natural whole-wheat sourdough we make at Honoré. Unlike plastic storage, this linen bag allows your bread "breathe," helping it stay just moist enough to keep fresh and dry enough to prevent mold. Whole-wheat sourdough stays fresh for up to five days when stored in this bag. Side pleats sewn into the bag help it expand to hold your loaf, and the drawstring closure lets you secure the top of the bag. It's hand-sewn in Oregon from the highest-quality Belgian linen and carefully imprinted with the Honoré wheat-stalk logo.

*This linen naturally retains moisture and is anti-microbial. It's grown and processed without chemicals, making it natural and compostable. Care Instructions: Wash in cool water. Hang dry.*
